

Egyptian Style  
Golf Croquet  
Mallets

**HORUS II**

## THE NEW 2015 HORUS II Mallet

**Lighter** for a faster swing.

**Stronger** to handle the high impact of golf croquet.

**More precise** for grip, sight and ball alignment.

These Egyptian style mallets are made with modern materials that take unnecessary weight out of the design and put it into the head where it counts. This produces more head speed and momentum with a lighter mallet, improving stun and jump shot performance.
